### **Court Reporter - JW1620**

**Clock Hours: 970**

**Cost per hour: \$4.50**

**Train to be a Court Reporter - at home, at your own pace.**

There are certain skills you need to have as a Court Reporter. The Court Reporter Program helps you learn them quickly and conveniently. Unlike a traditional Court Reporter school, your Program features self-guided, independent learning.

You'll get hands-on training in:

- Court and Realtime Reporting
- Written Communication and Personal Skills
- Legal and Medical Terminology
- Professional and Speed Development
- Advanced Realtime Skills

And you'll learn it all at home – no classroom needed!

#### **Start a challenging, moneymaking career as a Court Reporter.**

You can get the training you need to become a Court Reporter – even if time and location keep you from attending a traditional Court Reporter school! With your Court Reporter Program, you can:

- Work for a law firm, federal or state government agency, or TV network or station as a stenocaptioner.
- Start your own freelance court reporter business and enjoy the freedom of being your own boss!

The U.S. Bureau of Labor projects an increase of nearly 25% in the number of job opportunities for Court Reporters through 2016.\*\* As a freelance Court Reporter, you can work the hours you choose and guide your business toward success!

Court Reporter training includes:

- All the books, lessons, equipment, and learning aids you need
- A Stentura® Protégé Student Realtime Manual Writer
- Stenograph® Case CATalyst™ for Windows® Student Version Software
- Unlimited instructional support

### Human Resources – JW2650

**Clock Hours: 315**

**Cost per hour: \$14.00**

The Human Resources Program is comprised of courses designed to provide participants with comprehensive exposure to the skills necessary for advancement in the human resources job market. Students will learn how to professionally hire, train, retain and manage the type of employee talent that will help their businesses succeed. In addition to a foundation in HR practice, students also complete courses in compensation management, training, benefits, and labor relations.

This certificate program is designed for students who have demonstrated skills in college-level math, writing, computer literacy and research.

#### Learning Objectives

- Understanding the business environment including planning; organizing; leading and controlling.
- Reviewing the interaction of the personnel functions and the objectives of an organization.
- Learning how to manage the training function in organizations with an examination of successful and unsuccessful training practices.
- Designing benefit plans including understanding of insurance programs, employer-sponsored pension plans; and the integration of government and employer-sponsored retirement benefits into an individual's retirement planning.
- Engaging in labor relations through the interactions between organized labor unions and company management.
- ...and much, much more.
