

THE PROFESSIONAL EDUCATORS' ENRICHMENT PROGRAM provides a high quality experience for educators designed to help them enhance their instruction and improve student achievement. The program enables educators to assume leadership roles in creating the future of their schools and their school districts.

Program participants receive three (3) graduate credits each semester for participation in the seminars and conducting professional development presentations with colleagues in their school settings.

PRESENTERS

- ⇒ **Dr. Patricia Lawrence**, international consultant; a former middle school and high school teacher, counselor and administrator, and staff development consultant for Long Beach Unified School District and Los Angeles County Office of Education.
- ⇒ **Pamela Ramsden**, national consultant; former Supervisor of Instruction in Summit, New Jersey; Consultant to the Center for Technology Enhanced Education at Ramapo College. *Specialties:* Brain-based instruction and the design and delivery of effective instruction.
- ⇒ **Dr. Carol O'Connor**, international consultant, a member of the ASCD Differentiated Instruction Cadre, teacher, reading specialist, and professor. *Specialty:* Brain-Compatible Strategies, Curriculum Mapping, Differentiated Instruction, Dimensions of Learning.

PROFESSIONAL EDUCATORS' ENRICHMENT PROGRAM

Caldwell College

In partnership with

The Academy
for Teaching
and Leadership

2007 — 2008

Caldwell College & The Academy for Teaching and Leadership

Fall 2007

A SERIES OF THREE SEMINARS

Designing and Delivering Effective Instruction

Effective Classroom Management

3 Weekend Seminars

Seminar 1—September 21 & 22, 2007

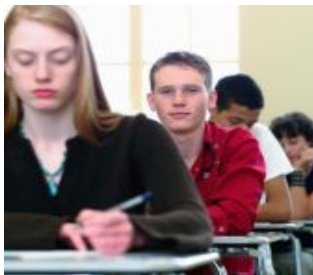

Seminar 2— October 19 & 20, 2007

Seminar 3—November 16 & 17, 2007

Presenter: Dr. Patricia Lawrence

Explore components and strategies of a classroom lesson. Make the curriculum meaningful and focused for the students. The program is for teachers of Grades K-12 and will equip them to:

- ⇔ Examine different patterns of lesson design.
- ⇔ Utilize the lesson design to support the intended learning.
- ⇔ Select the instructional strategies to help achieve the intended learning.
- ⇔ Match the assessment process with the identified classroom lesson.
- ⇔ Illustrate different ways to develop classroom rules and procedures.
- ⇔ Present various strategies for beginning and ending lesson instruction.
- ⇔ Discuss the nature of extrinsic motivation and give examples for different age groups.

SEMINAR PRESENTERS ARE NATIONALLY RENOWNED

- ⇒ Closed admission - **Participants must attend all seminars for the semester in which they are enrolled.**
- ⇒ Earn 3 graduate credits each semester at Caldwell College
- ⇒ All seminars held at Caldwell College
- ⇒ Seminar Process
 - ⇔ Self-Directed Learning
 - ⇔ Action Learning
 - ⇔ Research Based
 - ⇔ Results Focused

Participants will have the opportunity to practice their skills between seminars and extend and reinforce their learning throughout each semester.

Spring 2008

A SERIES OF THREE SEMINARS

How the Brain Learns: Implications for Classroom Practice

January 18 & 19, 2008

Presenter: Pamela Ramsden

Gain insights into your own learning style and discuss the implications of these insights for your own teaching. Become aware of the parts of the brain that are most critical to learning and appreciate the role of emotion in learning. Explore the ways in which the brain processes information and learn techniques to maximize student retention. Prepare to get personally involved in your own learning! The session has application for all grade levels and abilities.

Differentiating Instruction

2 Weekend Seminars

Seminar 1—February 8 & 9, 2008

Seminar 2— April 11 & 12, 2008

Presenter: Dr. Carol O'Connor

Study various curriculum units to learn how to identify specific learning objectives. Become adept in making connections between the material you are using and the students you are teaching. This program is designed for teachers K-12. The session will equip you to:

- ⇔ Organize the curriculum based on students' diverse needs.
- ⇔ Determine the entry level of students to the specified curriculum.
- ⇔ Select meaningful instructional strategies.
