MID/END SEMESTER SUMMATIVE CLINICAL INTERN EVALUATION [Clinical Competency Inventory (CCI)]

This form is designed to provide feedback for the Clinical Intern and for the School of Education. This composite information will be used for tracking our interns and statistical analysis of our program.

Please Print:

Course: ED 470, Clinical Practice

Form with fields: Date, Clinical Intern, Cooperating Teacher, Supervisor, Subject/Grade, Semester (Fall/Spring), School, District.

Mid Semester Evaluation End of Semester Evaluation

COMPLETED BY:

College Supervisor: Signature Coop. Teacher: Signature

Student Teacher Signature

Please assess the Student Teacher's demonstrated competency for the areas reflected by, and in line with, the professional teaching standards as set by NJ InTASC.

Please rate for each performance indicator listed below, with Advanced Proficient indicating the HIGHEST competency and Emergent indicating the LOWEST competency for each criterion.

Performance in each area is rated as follows:

PROFICIENCY KEY 1: Emergent 2: Novice 3: Proficient 4: Advanced Proficient Not Observed (Not to be used for the Final Assessment)

Your comments for each standard are also requested. Use the space provided. Please do not write in shaded areas.

PLEASE NOTE: The purpose of the Mid Semester Evaluation is to pinpoint areas for improvement before the Final Evaluation. Please let your clinical intern know that if he/she has not yet reached 105 points or higher, he/she should discuss with you those areas that need improvement. 105 points or higher are required for the Final Evaluation only.

PROFICIENCY KEY

**1: Emergent 2: Novice 3: Proficient 4: Advanced Proficient
Not Observed (Not to be used for the Final Assessment)**

<p><u>Standard #1: Learner Development</u> The teacher shall understand how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.</p>	Emergent	Novice	Proficient	Advanced Proficient	Not Observed
The teaching candidate:	1	2	3	4	
1.1 The clinical intern designs and implements lessons that are developmentally appropriate so that all learners can learn.	The clinical intern's lessons: <ul style="list-style-type: none"> • Contain activities that are not at the appropriate developmental level for all learners (they are either too hard or too easy); • Contain objectives that are not written correctly; • Are not cognitively challenging; 	The clinical intern's lessons: <ul style="list-style-type: none"> • Contain some objectives and activities that are at the appropriate developmental level for all learners (some are too hard or too easy); • Contain objectives that are not written properly; • Show some effort to differentiate instruction but needs improvement; • Are somewhat aligned to standards. 	The clinical intern's lessons: <ul style="list-style-type: none"> • Contain objectives and activities that are at the appropriate developmental level for all learners (neither too hard or too easy); • Address individual developmental differences in the instructional activities by differentiating instruction; • Are cognitively challenging for all learners; • Aligned to standards. 	The clinical intern's lessons: <ul style="list-style-type: none"> • Contain objectives and activities that are at the appropriate developmental level for all learners (neither too hard or too easy); • Address individual developmental differences in the instructional activities by differentiating instruction; • Are cognitively challenging for all learners; • Take into account each learner's background knowledge, and builds on his/her strengths and needs. • Are aligned to standards. 	
	○	○	○	○	○

1.2 The clinical intern interacts with learners in an appropriate manner with sensitivity to developmental, cultural, linguistic and social differences.	The clinical intern interacts with learners in a manner that: <ul style="list-style-type: none"> Needs more sensitivity to cultural and academic differences of students; Needs to be more aware of verbal and nonverbal messages being sent to students in the classroom. 	The clinical intern interacts with learners in a manner that: <ul style="list-style-type: none"> Uses academic conversation at times; Respects cultural differences of most learners; Tries to establish a supportive environment through verbal and nonverbal interactions, but needs some feedback. 	The clinical intern interacts with learners in a manner that: <ul style="list-style-type: none"> Encourages academic conversation and accepts linguistic and developmental differences in language development; Respects cultural differences of all learners; Respects all learners in the classroom through verbal and nonverbal interactions. 	The clinical intern interacts with learners in a manner that: <ul style="list-style-type: none"> Accepts developmental differences of all learners in the classroom through supportive discourse and accommodations; Encourages academic conversation and accepts linguistic and developmental differences in language development; Respects cultural differences of all learners; Respects all learners in the classroom through verbal and nonverbal interactions. 	
	○	○	○	○	○

Standard #2: Learning Differences The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.	Emergent	Novice	Proficient	Advanced Proficient	Not Observed
	1	2	3	4	
The teaching candidate:					
2.1 The clinical intern designs and implements instruction to ensure an inclusive learning environment for all learners.	The clinical intern's lessons: <ul style="list-style-type: none"> Use strategies that are not differentiating instruction at all; Is providing the same strategies for all students and not taking into account learning differences. 	The clinical intern's lessons: <ul style="list-style-type: none"> Tend to use the same strategy for all students and is not differentiating instruction, except on rare occasions; Try to support a learning environment that allows all students to succeed, but need to include more accommodations for learners. 	The clinical intern's lessons include: <ul style="list-style-type: none"> Many activities that differentiate the delivery of instruction based on needs of learners; Assessments that accommodate the needs of all learners; Most strategies that support a learning environment that allows all students to succeed. 	The clinical intern's lessons include: <ul style="list-style-type: none"> Developmentally appropriate activities that accommodate all learners and allow them to succeed (IEP's, 504's if available or appropriate); Strategies that differentiate the delivery of instruction based on needs of learners; Assessments that accommodate the needs of all learners. 	
	○	○	○	○	○

<p>2.2 The clinical intern incorporates multicultural content and perspectives into the lesson.</p>	<p>The clinical intern engages in activities that:</p> <ul style="list-style-type: none"> • Are not sensitive to the diversity of students, families or the surrounding community. • Are devoid of any multicultural content or perspective. 	<p>The clinical intern engages in activities that:</p> <ul style="list-style-type: none"> • Focuses on holidays and peripheral content related to students' cultural backgrounds; • Incorporate students' cultural heritage. 	<p>The clinical intern engages in meaningful lessons that:</p> <ul style="list-style-type: none"> • Reflect the diversity of students, their families, and their communities; • Incorporate students' interests and cultural heritage; • Illustrate and discuss content that addresses social and cultural issues relevant to students' identity; • Establish an inclusive learning community with clear and explicit guidelines and shared expectations. 	<p>The clinical intern engages in meaningful lessons that:</p> <ul style="list-style-type: none"> • Reflect the diversity of students, their families, and their communities; • Incorporate students' interests and cultural heritage; • Illustrate and discuss content that addresses social and cultural issues relevant to students' identity; • Relate content from various perspectives; • Establish an inclusive learning community with clear and explicit guidelines and shared expectations. 	
○ ○ ○ ○ ○ ○					
<p>2.3 The clinical intern designs and/or implements strategies to support learners whose first language is not English.</p>	<p>The clinical intern:</p> <ul style="list-style-type: none"> • Engages the learner in one-word responses most of the time; • Does not provide any accommodations to the English language learner; • Struggles to provide academic support to the English language learners. 	<p>The clinical intern:</p> <ul style="list-style-type: none"> • Needs to engage in academic discussions that involve more than one-word responses; • Occasionally uses strategies like graphic organizers, visual cues, and alternate ways of completing projects to support the learner; • Provides rudimentary support to the learner in language and literacy development. 	<p>The clinical intern:</p> <ul style="list-style-type: none"> • Supports the learner in language and literacy development; • Encourages the learner to engage in academic discussions that involve more than one-word responses; • Uses strategies like graphic organizers, visual cues, and alternate ways of completing projects to support the learner; 	<p>The clinical intern:</p> <ul style="list-style-type: none"> • Provides the learner with vocabulary reinforcement and/or modifications; • Encourages the learner to engage in academic discussions that involve more than one-word responses; • Uses strategies like graphic organizers, visual cues, and alternate ways of completing projects to support the learner; • Supports the learner in language and literacy development; • Uses the learners' cultural background to contribute to student learning. 	
○ ○ ○ ○ ○ ○					

Standard # 3: Learning Environment The teacher works with others (learners, families and colleagues) to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self - motivation.	Emergent 1	Novice 2	Proficient 3	Advanced Proficient 4	Not Observed
The teaching candidate:					
3.1 The clinical intern demonstrates general warmth, caring and respect towards learners through verbal/nonverbal communication.	The clinical intern: <ul style="list-style-type: none"> Needs to work on listening more carefully to learners; Needs to work on showing a more caring attitude. 	The clinical intern: <ul style="list-style-type: none"> Listens carefully to learners; Responds respectfully; Responds neutrally in tone. 	The clinical intern: <ul style="list-style-type: none"> Listens carefully to learners; Responds respectfully; Gives learners a chance to answer with adequate wait time; Shows warmth and caring in tone and actions. 	The clinical intern: <ul style="list-style-type: none"> Listens carefully to learners; Responds respectfully; Gives learners a chance to answer with adequate wait time; Encourages academic conversations and use of academic language with students; Shows warmth and caring in tone and actions. 	○
3.2 The clinical intern uses effective classroom management techniques.	The clinical intern struggles with classroom management techniques and enforcing classroom rules.	The clinical intern manages the class by: <ul style="list-style-type: none"> Enforcing effective classroom rules; Engaging in positive and supportive student-teacher interactions. 	The clinical intern manages the class by: <ul style="list-style-type: none"> Enforcing effective classroom rules; Engaging in positive and supportive student-teacher interactions; Facilitating effective student-student interactions; Provides a positive, low-risk learning environment that reveals mutual respect among students. 	The clinical intern manages the class by: <ul style="list-style-type: none"> Enforcing effective classroom rules; Implementing smooth transitions; Engaging in positive and supportive teacher-student interactions; Facilitating effective student-student interactions; Effectively implementing a variety of groupings and activities; Provides a positive, low-risk learning environment that reveals mutual respect among students. 	○

<p>3.3 Learners are actively participating and engaged in the lesson.</p>	<p>Learners are not engaged in the lesson but are distracted and not paying attention.</p>	<p>Learners are somewhat engaged in the lesson by:</p> <ul style="list-style-type: none"> • Discussing; • Participating; • Raising their hands; • Paying attention at their desks. 	<p>Learners are engaged in the lesson by:</p> <ul style="list-style-type: none"> • Applying the content through hands-on activities; • Discussing; • Actively Participating; • Displaying interest and enthusiasm. 	<p>Learners are highly engaged in a model lesson by:</p> <ul style="list-style-type: none"> • Applying the content through hands-on activities; • Discussing; • Actively Participating; • Displaying interest and enthusiasm; • Paying close attention and responding in an enthusiastic and interested manner. 	
○ ○ ○ ○ ○ ○					
<p>3.4 Learners are engaged in positive peer relationships through classroom activities.</p>	<p>There is very little collaboration taking place in the classroom, which would enhance positive peer relationships.</p>	<p>Learners need to:</p> <ul style="list-style-type: none"> • Collaborate with peers more frequently. • Actively discuss with peers; • Coaching/mentoring a peer. 	<p>Learners are:</p> <ul style="list-style-type: none"> • Collaborating with peers; • Actively discussing with peers; • Coaching/mentoring a peer; • Establishing positive peer interactions. 	<p>Learners are:</p> <ul style="list-style-type: none"> • Collaborating with peers in cognitively challenging and relevant activities; • Actively discussing with peers; • Coaching/mentoring a peer; • Using positive language to support each other; • Establishing positive peer interactions. 	
○ ○ ○ ○ ○ ○					

<p>4.2 Learners demonstrate development of critical thinking and problem solving within the content area.</p>	<p>Learners need to develop their development of critical thinking and problem solving skills. Activities are very low level and do not push the students to problem solve or think critically.</p>	<p>Learners need to develop further their critical thinking and problem solving skills within the content area:</p> <ul style="list-style-type: none"> • More classroom activities and strategies need to engage them in critical thinking and problem solving in the content area; • Written and oral responses are too low level and need to encourage learners to think critically and solve problems. 	<p>Learners demonstrate the development of their critical thinking and problem solving skills within the content area through:</p> <ul style="list-style-type: none"> • Responses to higher order thinking questions raised by the clinical intern; • Classroom activities and strategies that engage them in critical thinking and problem solving in the content area; • Responses written and oral to critical thinking and problem solving assignments. 	<p>Learners demonstrate the development of their critical thinking and problem solving skills within the content area through:</p> <ul style="list-style-type: none"> • Responses to higher order thinking questions raised by the clinical intern; • Questions generated by the learners that demonstrate critical thinking skills; • Classroom activities and strategies that engage them in critical thinking and problem solving in the content area; • Their ability to apply key concepts in the discipline to new disciplinary content; • Responses written and/or oral to critical thinking and problem solving assignments. 	
	○	○	○	○	○

<p>4.3 The clinical intern integrates reading, writing, speaking and listening.</p>	<p>The clinical intern:</p> <ul style="list-style-type: none"> • Does not use a variety of print sources to teach literacy; • Rarely emphasizes comprehension; • Does not use age-appropriate literacy strategies. 	<p>The clinical intern:</p> <ul style="list-style-type: none"> • Tends to use limited resources to teach literacy; • Tends not to stress comprehension; • Needs to use more age-appropriate literacy strategies; • Needs more text-based discussions and writing to reinforce literacy. 	<p>The clinical intern:</p> <ul style="list-style-type: none"> • Uses a variety of print sources to teach literacy; • Stresses comprehension of text; • Facilitates rich text-based discussions and/or writing; • Uses age appropriate literacy strategies to promote learners' literacy development; • Focuses instruction equally on narrative and informational text 	<p>The clinical intern:</p> <ul style="list-style-type: none"> • Uses a variety of print sources to teach literacy; • Stresses comprehension of text through strategy instruction; • Facilitates rich text-based discussions and/or writing through specific, thought-provoking questions about shared texts; • Uses shared reading, Read Alouds and/or age appropriate strategies that promote learners' literacy development; • Focuses instruction equally on narrative and informational text. 	
	○	○	○	○	

Standard #5: Application of Content The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.	Emergent	Novice	Proficient	Advanced Proficient	Not Observed
The teaching candidate:					
5.1 The clinical intern implements interdisciplinary learning experiences that allow learners to integrate knowledge from several content areas.	The clinical intern focuses solely on one content area with no connection to other disciplines, and does not provide any opportunity for learners to apply concepts and ideas.	The clinical intern's lessons: <ul style="list-style-type: none"> • Tend to focus on one content area only with little connection to other disciplines; • Have learners engaged in applying concepts and ideas from mainly one content area; 	The clinical intern implements learning experiences that: <ul style="list-style-type: none"> • Connect the content to concepts, issues and relevant ideas from other content area(s); • Have learners actively engaged in applying concepts and ideas from at least one other content area. 	The clinical intern implements learning experiences that: <ul style="list-style-type: none"> • Connect the content to concepts, issues and relevant ideas from other content area(s); • Have learners actively engaged in applying concepts and ideas from several content areas; • Provide opportunities for learners to use interdisciplinary concepts to help solve problems. 	
5.2 Learners apply content knowledge to solve real world problems through collaboration.	Learners are working exclusively from a textbook, worksheet, or answering lower level questions. There is no group collaboration nor are learners solving real world problems.	Learners are working predominantly from a textbook or worksheets and occasionally working collaboratively in a group. There is little evidence that they are trying to solve real world problems.	Learners are actively involved in: <ul style="list-style-type: none"> • Exploring and/or researching different alternatives to solving a problem; • Working collaboratively in a group; • Applying content knowledge to solving a problem. 	Learners are actively involved in: <ul style="list-style-type: none"> • Exploring and/or researching different alternatives to solving a problem; • Working collaboratively in a group; • Applying content knowledge to solving a problem; • Using critical thinking and creativity to generate new ideas and novel approaches to solving a problem. 	
5.3 Learners use current resources for content exploration, which may include technological applications.	Learners are only using their textbooks to explore the content. There is little technology integration or use of varied resources if technology is not available.	Learners are using a few different resources such as laptops and books for content research. They mainly use their textbooks as the primary resource.	Learners are: <ul style="list-style-type: none"> • Using a variety of resources to help solve a problem; • Engaged in discovering new resources available for the exploration of the content; • Using current events and technological resources for content exploration 	Learners are: <ul style="list-style-type: none"> • Using resources such as books, printed material, laptops, apps, iPads, and websites to help solve a problem; • Engaged in discovering new resources available for the exploration/research of the content; • Using current events and/or resources for exploration/research of the content. 	

<p>5.4 Learners apply their content knowledge through a variety of forms such as oral, written, and/or technological presentations.</p>	<p>Learners apply their content knowledge through writing and quizzes or tests. There is little variety in terms of how they present their knowledge.</p>	<p>Learners predominantly apply their content knowledge through written reports, oral presentations and tests. More varied presentations with use of technology, if available, is recommended.</p>	<p>Learners apply their content knowledge by:</p> <ul style="list-style-type: none"> • Telling a story, recounting an experience or writing on a topic; • Engaging in collaborative discussions; • Presenting their ideas/research in a variety of ways. 	<p>Learners apply their content knowledge by:</p> <ul style="list-style-type: none"> • Telling a story, recounting an experience or reporting on a topic, with appropriate sequencing of ideas and using appropriate facts and details; • Engaging in collaborative discussions; • Presenting their ideas in a variety of ways including drawings, hands-on projects, multimedia presentations, group presentations. 	
○ ○ ○ ○ ○					
<p>5.5 Learners are engaged in literacy activities within content areas.</p>	<p>Learners are using their textbook only and using it as the primary source for learning the content. They are not being taught about how to comprehend informational text nor how to draw evidence from the text to support answers.</p>	<p>Learners are mostly reading the same textbook and a few supplemental resources. They are writing essays that are based on textbook readings and some outside sources. They are learning the vocabulary words from the textbook and writing essays about topics from the textbook.</p>	<p>Learners are engaged in:</p> <ul style="list-style-type: none"> • Reading a variety of informational texts; • Comparing multiple sources of texts; • Using comprehension to help make meaning; • Writing about the content area; • Learning vocabulary (Tier 1, 2, and 3 words); • Listening to others' research and/or presentations. 	<p>Learners are engaged in:</p> <ul style="list-style-type: none"> • Reading a variety of informational texts; • Using comprehension strategies such as questioning, text structure, and graphic organizers to help make meaning; • Comparing texts on the same theme and drawing conclusions; • Writing about and/or discussing the content using evidence from the text to support ideas; • Learning vocabulary (Tier 1, 2, and 3 words); • Listening to others' research and/or presentations and commenting on it. 	
○ ○ ○ ○ ○					
<p>5.6 Learners are engaged in activities that promote and value the development of quantitative reasoning within content areas.</p>	<p>Learners are engaged in quantitative reasoning in mathematics lessons only. There is not integration into any other content area.</p>	<p>Learners use quantitative reasoning occasionally to explore a content area, especially science. Little effort is made to have learners explore quantitative reasoning in other fields, such as English/Language Arts or Social Studies.</p>	<p>Learners are engaged in:</p> <ul style="list-style-type: none"> • Interpreting charts and graphs; • Using mathematics to solve problems; • Exploring quantitative reasoning when reading a variety of resources; • Discussing the value of quantitative reasoning. 	<p>Learners are engaged in:</p> <ul style="list-style-type: none"> • Interpreting charts and graphs; • Using concrete objects and manipulatives to solve problems; • Applying mathematical modeling/reasoning to explore the content area; • Exploring quantitative reasoning when reading a variety of resources; • Discussing the value of quantitative reasoning within different content areas such as the arts. 	
○ ○ ○ ○ ○					

Standard #6: Assessment The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.	Emergent	Novice	Proficient	Advanced Proficient	Not Observed
The teaching candidate:	1	2	3	4	
6.1 The clinical intern designs appropriate formative and summative assessments that are aligned with learning objectives.	The lesson plans contain a very general method of assessment that tends to be predominantly quizzes and tests.	The lesson plans contain: <ul style="list-style-type: none"> • A general assessment to evaluate the students; • General rubrics, which need more specific criteria and alignment with the objectives/outcomes . • A few formative assessments to monitor learners' progress. 	The lesson plans contain: <ul style="list-style-type: none"> • An assessment to evaluate each objective; • A rubric that is designed to measure objectives; • A few formative assessments that monitor learners' progress; • A benchmark for measuring achievement. 	The lesson plans contain: <ul style="list-style-type: none"> • A clear assessment strategy for how each objective will be evaluated; • Rubrics and/or criteria that are designed specifically for each objective; • Formative assessments that are built into the lesson to monitor learners' progress; • A measure or method of collecting data for each objective; • A benchmark for measuring achievement for each objective. 	
6.2 The clinical intern uses assessment and provides meaningful and specific feedback to learners.	The clinical intern provides minimal feedback to the students.	The clinical intern: <ul style="list-style-type: none"> • Provides feedback to learners in a positive manner; • Works with learners to help them understand their own performance. 	The clinical intern: <ul style="list-style-type: none"> • Uses assessment data to provide feedback to learners in a positive manner; • Works with learners to help them understand their own performance; • Provides feedback to students on a continual basis. 	The clinical intern: <ul style="list-style-type: none"> • Uses assessment data to differentiate instruction based on students' needs; • Uses assessment data to provide feedback to learners in a positive manner; • Targets the feedback on specific objectives to help increase achievement; • Works with learners to help them understand their own performance, and, if possible, establish their own learning goals; • Provides continuous feedback to learners regarding their future learning goals. 	

Standard #7: Planning for Instruction The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.	Emergent	Novice	Proficient	Advanced Proficient	Not Observed
	1	2	3	4	
7.1 The clinical intern selects a variety of appropriate instructional materials and resources to meet the needs of all learners.	The textbook is used as the only source of material.	The instructional materials and resources used in the lessons rely predominantly on the textbook and a few supplemental sources of material. A variety of resources are not used and/or the resources do not meet the needs of all learners.	The instructional materials and resources used in the lessons: <ul style="list-style-type: none"> • Are well chosen to meet the lesson objectives. • Meet the needs of all learners including struggling readers and English language learners; • Show a variety (print, video, technology, primary sources, manipulatives) other than just the textbook; 	The instructional materials and resources used in the lessons <ul style="list-style-type: none"> • Are well chosen to meet the lesson objectives. • Develop meaningful and deep learning of the content and foster a deep appreciation of different cultures; • Meet the needs of all learners including struggling readers and English Language Learners; • Are at appropriate developmental and reading levels to foster an interest in learning for all students; • Are a rich variety (print, video, technology, primary sources, manipulatives) 	
	○	○	○	○	○
7.2 The clinical intern integrates technology into the lesson plan to promote effective learning for all learners, when available.	There is little or no technology integration in the lessons.	When available, technology use is predominantly teacher presentations and students are not engaged in using the technology.	When available technology use: <ul style="list-style-type: none"> • Promotes meaningful learning; • Involves the learners who are engaged in using the technology; • Provides interest and meaning to the learning activities. 	When available technology use: <ul style="list-style-type: none"> • Promotes meaningful and deep learning; • Involves the learners who are engaged in using the technology; • Is integral to the learning activities; • Provides interest and meaning to the learning activities. 	
	○	○	○	○	○

<p>7.3 The clinical intern designs and implements effective lessons that are well organized, and follow a carefully sequenced development of high level student learning.</p>	<p>The lessons are not effectively organized and missing several components of a well-constructed lesson plan.</p>	<p>The lessons are not well organized and need a more carefully sequenced development. The lessons do not contain all the elements of a well-constructed lesson plan, missing one of the following: a solid introduction with a motivating hook, a procedure with meaningful learning activities, a good conclusion, and/or assessment of the objectives.</p>	<p>The lessons contain:</p> <ul style="list-style-type: none"> • Appropriately written objectives aligned to standards; • A good introduction which may include a motivating hook and/or development of background knowledge; • A good procedure including engaging activities; • A good conclusion that might include a summary and wrap-up of concepts; • An assessment of what was learned. 	<p>The lessons contain:</p> <ul style="list-style-type: none"> • Clear and appropriately written objectives that are aligned to standards; • A well constructed introduction including a motivating hook and development of background knowledge; • A solid procedure that engages the learner in meaningful and cognitively challenging activities; • A solid conclusion where learners draw conclusions from the material and the clinical intern reviews key concepts; • An assessment of what was learned including the collection of data (quiz results, a rubric score, a checklist score). 	
○ ○ ○ ○ ○ ○					
<p>7.4 The clinical intern's unit has lessons that build on each other to support learning of the essential strategy with clear connections to skills and learning theory.</p>	<p>The unit:</p> <ul style="list-style-type: none"> • Is not well sequenced; • Needs more definite connection to skills and theory; • Is not developmentally appropriate for the target audience. 	<p>The unit:</p> <ul style="list-style-type: none"> • Is out of balance in terms of sequence and development of content, skills, and knowledge; • Needs more definite connection to theory; • Is developmentally appropriate for the target audience. 	<p>The unit contains:</p> <ul style="list-style-type: none"> • A somewhat organized and sequential development of content, skills and knowledge to support student learning; • Connections to skills and theory; • Is developmentally appropriate for the target audience; Addresses students' prior knowledge. 	<p>The unit:</p> <ul style="list-style-type: none"> • Contains a clearly organized and sequential development of content, skills and knowledge to support student learning; • Shows clear connections to developmental and pedagogical theory. • Has clear connections to skills; • Is developmentally appropriate for the target audience; • Builds on students' prior knowledge and prerequisite skills and knowledge; 	
○ ○ ○ ○ ○ ○					

<u>Standard #8: Instructional Strategies</u> The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.	Emergent 1	Novice 2	Proficient 3	Advanced Proficient 4	Not Observed
8.1 The clinical intern uses effective questions to facilitate deep understanding of content (i.e., higher order thinking).	The clinical intern does not ask enough questions throughout the lesson and the questions that are posed are simple recall questions.	The clinical intern asks questions throughout the lessons that: <ul style="list-style-type: none"> • Often are “yes” or “no” questions • Ask students about vocabulary words; • Do not use correct academic language for the discipline. 	The clinical intern models and uses a variety of questions throughout the lessons that: <ul style="list-style-type: none"> • Challenge students cognitively (why, what if, and how questions); • Advance high-level thinking and discourse; • Ask students about vocabulary words; • Use appropriate academic language for the discipline. 	The clinical intern models and uses a variety of questions throughout the lessons that: <ul style="list-style-type: none"> • Challenge students cognitively (why, what if, and how questions); • Advance high-level thinking and complex discourse; • Address how the text works (asks questions about text structure, author’s purpose, writing style, theme, use of language, etc.); • Ask students about vocabulary; • Use appropriate academic language for the discipline. 	
8.2 The clinical intern varies his/her role in the instructional process in relation to the content (e.g., instructor, facilitator, coach, participant).	The clinical intern engages in direct instruction only without varying his/her role during the lesson.	The clinical intern engages in only a few different teacher-student interactions, with the predominant role being direct instruction to whole group	The clinical intern engages in a variety of instructional activities that require different teacher-student interactions, such as: <ul style="list-style-type: none"> • Direct instruction to full class or small group; • Facilitator and/or coach to small groups or individual students; • Participant during student presentations. 	The clinical intern engages in a variety of instructional activities that require different teacher-student interactions, such as: <ul style="list-style-type: none"> • Direct instruction to full class or small group; • Facilitator and/or coach to small groups or individual students; • Modelling for demonstration of new skills/processes; • Being a participant during student presentations. 	

<p>8.3 The clinical intern models metacognitive processes to support comprehension of content (think alouds, questioning).</p>	<p>The clinical intern does not model any strategy or skill before having the learners apply it.</p>	<p>The clinical intern occasionally models a strategy or skill and does a brief think aloud.</p>	<p>The clinical intern uses the following metacognitive strategies to develop deeper understanding of text/content:</p> <ul style="list-style-type: none"> • Models how to apply a specific strategy/skill before having students practice or apply it; • Uses Think alouds to show his/her own thought processes when using the strategy/skill. 	<p>The clinical intern uses the following metacognitive strategies to develop deeper understanding of text/content:</p> <ul style="list-style-type: none"> • Models how to apply a specific strategy/skill before having students practice or apply it; • Uses Think alouds to show his/her own thought processes when using the strategy/skill; • Asks learners to think about and explain the strategies they are using to understand text and/or content. 	
	○	○	○	○	○
<p>8.4 The clinical intern/learners use(s) instructional time effectively to achieve learning outcomes.</p>	<p>The clinical intern does not use allotted time effectively to implement an effective lesson and assess the learning outcomes.</p>	<p>The clinical intern uses allotted time to:</p> <ul style="list-style-type: none"> • Implement a lesson with an introduction, activities, and summary; • Assess the learning outcomes. 	<p>The clinical intern uses allotted time to:</p> <ul style="list-style-type: none"> • Keep learners on-task; • Minimize time for transitions; • Engage learners in achieving learning outcomes; • Implement an effective lesson with an introduction, activities, and summary; • Assess the learning outcomes; • Monitor and adjust lesson according to formative assessment and time constraints. 	<p>The clinical intern uses allotted time to:</p> <ul style="list-style-type: none"> • Keep learners on-task with cognitively challenging activities; • Minimize time for transitions; • Engage learners in achieving learning outcomes; • Implement an effective lesson with clear and measurable objectives, an introduction, challenging activities, and summary; • Assess the learning outcomes; • Monitor and adjust lesson according to formative assessment and time constraints.
